

**UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF ALABAMA
Southern Division**

In re: SILICONE GEL BREAST) Master File CV 92-P-10000-S
IMPLANT PRODUCTS LIABILITY)
LITIGATION (MDL-926)) (Applies to cases listed in Appendix)

**ORDER No. 44B
(Dismissing or Administratively Closing Listed Cases)**

1. With respect to each case listed in the Appendix to this order, it is ordered that:

(a) Any pending claims against Dow Corning Corp. and Dow Corning Wright in these cases are hereby severed and administratively closed in this court without prejudice to the pursuit of such claims in the United States District and Bankruptcy Courts for the Eastern District of Michigan in accordance with procedures established in those courts and without impairing in any way the potential rights of such plaintiffs under any plan of reorganization (such persons to be treated under such a plan as if they still had a pending lawsuit against Dow Corning or Dow Corning Wright). This court, moreover, retains jurisdiction to vacate such closings and reopen such claims against Dow Corning on written motion if filed within 30 days after reorganization proceedings of Dow Corning are dismissed or within 30 days after the Eastern District of Michigan determines that reopening of such cases against Dow Corning is the procedure to be followed in liquidating such claims.

(b) Any pending claims against The Dow Chemical Company or Dow Holdings, Inc. are hereby severed and transferred to the United States District Court for the Eastern District of Michigan. Counsel should informally notify this court if, through oversight, it has failed to advise the Eastern District of Michigan of some claim against those defendants.

(c) Any pending claims against McGhan Medical Corp., INAMED Corp., CUI Corp., and their subsidiaries and principals are hereby severed and administratively closed, without prejudice to the pursuit of such claims in a pending class settlement of such claims (and with the same rights under any such settlement as if they still had a pending lawsuit against such companies and individuals). Moreover, this court retains jurisdiction to vacate such closings and reopen such claims on request if that pending class settlement should not be approved.

(d) The plaintiff(s) in such cases will have the right to vacate the dismissal and reinstate in this court any previously pending claims against any of the other defendants by written motion filed in this court within 1 year after the date of this order. Unless and until vacated, the dismissal will be considered as with prejudice to the extent of precluding breast implant claims by the plaintiff (individually or as a class member) against such defendants in other cases in federal or state courts (except to the extent permitted under the terms of the Revised Settlement Program should a participating defendant default in meeting its financial obligations under that settlement).

(e) Each party will bear its own costs.

2. A copy of this order and the appendix will be filed and docketed in CV 92-P-10000-S and will also be placed on the court's Webpage for viewing, printing, and downloading. A copy of this order (without the full appendix) will be filed and docketed in each of the cases so dismissed or administratively closed.

This the 26th day of October, 1998.

/s/ Sam C. Pointer, Jr.
Chief Judge

Serve: Plaintiffs' Liaison Counsel
Defendants' Liaison Counsel
